All Mastercard consumer credit cardholders in the US are eligible for ID Theft Protection.

How to Use the Offers:

1. DETECT POTENTIAL IDENTITY AND FRAUD THREATS

2. RESOLUTION OR SPECIALIST SUPPORT

3. DETECT DARK WEB ACTIVITY

4. SEARCH FOR COMPROMISED CREDENTIALS

5. MONITOR YOUR BUSINESS FOR OCCASIONAL ALERTS

6. LEVERAGE PROFESSIONAL RESOLUTION SERVICES

Program Description:

ID Theft Protection is provided by the Mastercard® ID Theft Resolution Program supported by First Security Network, LLC. The kit contains a Mastercard® Self-Service Resolution Kit, which includes instructions of what to do if your identity was compromised, and a list of phone numbers to call for assistance. The kit also contains: Evidence of Coverage, which is a document which informs Consumers of the different forms of ID theft, and how to resolve each situation. Resolution tools in the kit are designed to help Consumers recover from ID theft.

1. DETECT POTENTIAL IDENTITY AND FRAUD THREATS

The covered card is a self-service resolution tool that allows Consumers to search for the Consumer's business URL and domain (limited to searches for the Consumer's business URL and domain (limited to the first 500 queries per account per twelve-month period). The covered card also allows Consumers to search for any of the following: Compromised Credentials, Drivers Licenses, Medical and Vehicle Insurance Cards, Passport Numbers, Bank Account Numbers. If a query results in a URL or domain name that appears to be associated with the Consumer's business, the covered card will attempt to contact the Consumer via email or phone to verify the query. If the query is returned as a positive result, the covered card will attempt to contact the Consumer via email or phone to verify the query. If the query is returned as a negative result, the covered card will attempt to verify the query. The covered card will continue to search for the Consumer's business URL and domain (limited to searches for the Consumer's business URL and domain (limited to the first 500 queries per account per twelve-month period) until the Consumer has 500 positive results. If the Consumer has 500 positive results, the covered card will attempt to verify the query. The covered card will continue to search for the Consumer's business URL and domain (limited to searches for the Consumer's business URL and domain (limited to the first 500 queries per account per twelve-month period) until the Consumer has 500 positive results. If the Consumer has 500 positive results, the covered card will attempt to verify the query.
